

MOHAMMAD RAIHAN HADRIANSYAH PRASETYA

TARGET ROLES: SOFTWARE ENGINEER | FULL-STACK DEVELOPER

- Bandung, Indonesia | +62 818-0230-1888 | reyyhadri@gmail.com | linkedin.com/in/reyyhadri | github.com/RaihanHadriansyah21 | portoreyy.vercel.app

PROFESSIONAL SUMMARY

- Telecommunication Engineering graduate (S.T.) from Telkom University with yudisium completed and formal degree conferral in November 2026. Software Engineer / Full-Stack Developer candidate experienced in building web and mobile products with Next.js, React, TypeScript, FastAPI, Python, Supabase, Redis/RQ, Flutter, and Docker. Contributed to team projects spanning REST API development, asynchronous processing, database-backed workflows, AI model integration, automated testing, continuous integration, and cloud deployment. Seeking an entry-level software engineering role where I can contribute adaptable full-stack execution and structured technical problem solving.

EDUCATION

Telkom University - Bandung, Indonesia - 2022 - 2026
- Bachelor of Engineering (S.T.) in Telecommunication Engineering | GPA: 3.29/4.00
- Officially graduated (Yudisium completed); formal commencement ceremony scheduled for November 2026.

SELECTED PROJECTS

SCOVIS - Applied AI and Full-Stack Scoring Decision Support - Jun 2026 - Aug 2026
Team project | Next.js, TypeScript, Supabase, FastAPI, Redis/RQ, TensorFlow, Docker, GitHub Actions

- Contributed to a 3-role platform for students, lecturers, and administrators, connecting class workflows with 24-section answer upload, asynchronous scoring, lecturer review, score override, re-upload, and controlled result release.
- Worked across 8 integration surfaces—Next.js frontend, REST API, PostgreSQL database, Supabase Storage, Redis/RQ queue, TensorFlow worker, automated testing, and cloud deployment—within a backend documenting 31 FastAPI routes.

QuizInt - Role-Based Mobile Learning Prototype - Jun 2026 - Aug 2026
2-person academic team | Flutter, Dart, Provider, Supabase

- Led implementation of a Flutter/Supabase codebase supporting 3 role-based workspaces (learner, instructor, and administrator), Provider state management, biometric authentication, and QR onboarding.
- Built 4 quiz power-ups (Double Score, Freeze Timer, 50:50, and Second Chance) plus leaderboards, instructor analytics, Google Classroom integration surfaces, and PDF gradebook export.

DermaScan - Educational Skin-Lesion Decision-Support Prototype - Jun 2026 - Aug 2026
Team capstone | TensorFlow Lite, FastAPI, React, Railway, Vercel

- Contributed TFLite model conversion, FastAPI integration, and Railway/Vercel deployment for 2 inference outputs: binary risk classification and a 5-class lesion result displayed in a React interface.

PROFESSIONAL EXPERIENCE

CV. Bima Technologies - Jember, East Java, Indonesia - Jun 2025 - Sep 2025
Information Technology Intern

- Completed a 4-month IT internship supporting full-stack website development across 5 work areas: frontend, backend, requirements analysis, technical documentation, and Excel-based data handling.
- Supported at least 3 cross-division technical activities—CCTV monitoring-room relocation, application/website planning, and server/data-center exposure—while adapting to changing startup project needs.

PT Telkom Indonesia (IndiHome) - Bandung, Indonesia - Jul 2021 - Aug 2021
Telecommunication Installation Intern

- Completed a 2-month field internship assisting residential Wi-Fi and FTTH installation, cable management, and ONT/router configuration alongside Telkom technicians.
- Supported customer-facing service activities—installation, device configuration, and troubleshooting—while communicating directly with residential users.

LEADERSHIP EXPERIENCE

Telecommunication Engineering Student Association (HMTT) - Telkom University -2023 - 2026

Head of Commission 3, Student Representative Council (2025-2026) | Legislative Staff (2024-2025) | Intern Staff (2023)

- Led Commission 3 in supervising and evaluating executive-board programs, coordinating hearings and internal meetings, reviewing reports and regulations, and delegating work to commission members.
- Previously monitored program implementation, facilitated student feedback, and contributed to organizational accountability and policy oversight.

CERTIFICATIONS AND TRAINING

- Coding Camp 2026 - AI Engineer specialization, DBS Foundation and Dicoding Indonesia (program completion, Jul 2026).
- Memulai Pemrograman dengan Python, Dicoding (60 hours; Python foundations, OOP, testing, and libraries, Mar 2026).
- Belajar Dasar Git dengan GitHub, Dicoding (15 hours; repository and collaboration fundamentals, Feb 2026).
- Membangun Aplikasi Gen AI dengan Microsoft Azure, Dicoding (Azure AI Foundry, deployment, SDK, RAG, and evaluation, Mar 2026).

TECHNICAL SKILLS

Programming: Python, TypeScript, JavaScript, Dart, SQL

Frontend and Mobile: Next.js, React, TypeScript, Flutter, Provider, responsive UI development

Backend and Data: FastAPI, REST API development, Supabase Auth/PostgreSQL/Storage, Redis/RQ, asynchronous processing

Testing and Quality: pytest, Vitest, Playwright, unit testing, integration testing, technical documentation

AI Integration: TensorFlow, TensorFlow Lite, model inference integration, model export

Deployment and Tools: Docker, Docker Compose, Caddy, Vercel, Railway, Git, GitHub Actions, CI and cloud deployment workflows

SOFT SKILLS

Problem Solving, Analytical Thinking, Collaboration, Communication, Adaptability, Leadership, Independent Learning

LANGUAGES

Indonesian: Native

English: English Proficiency Test (EPt), Telkom University: 490 (CEFR B1; valid through Apr 2028); English for Business Communication: 90%
